MEDINA ILMU
Mencerdaskan Generasi Bangsa

Makanan kesukaan Raptor adalah daging dan sayuran. Setiap hari, ia selalu menghabiskan satu keranjang daging. Namun, sangat disayangkan. Ia sama sekali tidak pernah membersihkan gigi setelah makan. Pada suatu hari, Ketika Raptor sedang asik makan.

Raptor's favorite food is meat and vegetables. Every day, he always finished one basket of meat. However, it is very unfortunate. He never cleans his teeth after eating. One day, when the Raptor was busy eating.

Dino pun mengingatkan sahabatnya. ‘Raptor, setelah kau makan. Bersihkanlah gigimu. Jika tidak, gigimu pasti akan sakit dan kau tidak dapat makan lagi.’ Nasehat Dino. Namun, Raptor sama sekali tidak memperdulikannya. Ia tetap asik makan daging.

Dino also reminded his friend. 'Raptor, after you eat. Clean your teeth. Otherwise, your teeth will definitely hurt and you won't be able to eat anymore.' Dino advised. However, the Raptor didn't care at all. He still enjoys eating meat.

Karena ia berpikir, daging adalah makanan yang tidak akan mengakibatkan giginya sakit. Beberapa hari kemudian, Dino asik berjalan-jalan di pinggir sungai, ditengah jalan ia melihat Raptor yang sedang termenung.

Because he thought, meat was food that would not cause his teeth to hurt. A few days later, Dino was busy walking by the river, in the middle of the road he saw a Raptor who was pensive.

Wajahnya terlihat sedih sekali. Tidak seperti biasanya. Disebelahnya pun terlihat keranjang yang dipenuhi oleh daging dan sayuran.

Her face looks so sad. Not like usual. Beside him was a basket filled with meat and vegetables.

“ Raptor, apa yang kau lakukan? Kau terlihat sangat sedih.” Tanya Dino. “Gigiku sangat ngilu, aku tidak dapat makan. Padahal, perutku sangat lapar.” Jawab Raptor sedih.

***“Raptor, what are you doing? You look really sad.”
Dino asked. “My teeth hurt so much, I couldn’t eat.
In fact, my stomach is very hungry.” The Raptor
replied sadly.***

Mendengar keluhan sahabatnya, Dino pun merasa kasihan dan membawanya ke rumah Bronto. “Raptor, sebaiknya sekarang kita pergi ke rumah Bronto. Sepertinya, ia mempunyai obat untukmu.” Ajak Dino.

Hearing his friend's complaint, Dino felt sorry for him and took him to Bronto's house. "Raptor, we should go to Bronto's house now. It seems, he has medicine for you." Dino asked.

Akhirnya, mereka berdua pun pergi ke rumah Bronto. Sesampainya di rumah Bronto, ia langsung memeriksa gigi Raptor.

*Finally, the two of them went to Bronto's house.
Arriving at Bronto's house, he immediately checked
the Raptor's teeth.*

“ Raptor, gigimu banyak sekali yang lubang. Kamu pasti tidak pernah membersihkan gigimu?” Tanya Bronto. Dino hanya mengangguk karena malu.

***“Raptor, you have a lot of cavities in your teeth. You definitely never clean your teeth?” asked Bronto.
Dino just nodded in embarrassment.***

“Temanku Dino, sisa makanan yang sudah kita makan akan mengakibatkan lubang dan menyebabkan gigi kita ngilu dan sakit. Jadi, kau harus membersihkan gigimu setiap hari.” Ujar Bronto menjelaskan.

“My friend Dino, the leftovers we eat will cause cavities and cause our teeth to ache and hurt. So, you have to clean your teeth every day.” said Bronto explained.

Dino pun menganggukkan kepalanya lagi. Dalam hatinya, ia berjanji akan rajin membersihkan giginya. Tidak lama kemudian, gigi Raptor pun tidak ngilu lagi.

Dino nodded his head again. In his heart, he promised to be diligent in cleaning his teeth. Not long after, the Raptor's teeth didn't hurt anymore.

Setelah kejadian tersebut, Raptor pun rajin membersihkan giginya. Giginya pun sekarang sehat dan tidak pernah sakit. Dino pun sangat senang melihat sahabatnya kembali ceria.

After the incident, the Raptor was diligent in cleaning his teeth. His teeth are now healthy and never hurt. Dino was very happy to see his friend again cheerful.

Pesan Moral

Rajinlah kita merawat atau membersihkan diri kita misalnya menggosok gigi. Karena dengan kita merawatnya, kita tidak akan terserang bakteri ataupun kuman.
