Mencerdaskan Generasi Bangsa

Pada suatu hari di dalam hutan, ada se ekor kancil sedang berlari-lari, si kancil lalu berpapasan dengan seekor siput di pinggir kali. si kancil yang sombong meledek siput, betapa lambannya jalannya si siput, betapa tak bisa cepatnya si siput berjalan.

One day in the forest, there was a mouse deer running,
the deer then encountered a snail on the edge of the
river. the arrogant snatches of the snails, how sluggish
the slugs are, how fast the snail runs.

Si Kancil dengan sifat angkuhnya bicara kepada si siput
“Siput, beranikah kau adu balap lari denganku?” Dia
tahu siput pasti menolak, karena tak mungkin bisa
menang melawannya.

The Kancil with the pride of talking to the slug
“Snail, dare you run racing with me?” He knew the
snails would refuse, because there was no way to win
against him.

Tetapi di luar dugaan si kancil, si siput menerima tantangan itu. dan kedua nya pun membuat suatu perjanjian dan menentukan hari dimana keduanya akan lomba balap lari.

But unexpectedly the deer, the snail accepted the challenge. And both of them made an appointment and determined the day they would race.

Si kancil sangat menantikan hari H perlombaan. Dan selama itu, siput membuat sebuah strategi, siput mengajak teman-teman siput yang lainnya untuk berkumpul dan menceritakan tentang tantangan si kancil kepada dirinya. Siput dan kawan-kawan siput yang lainnya sedang berdiskusi untuk bisa menang dan bisa mempermalukan si kancil.

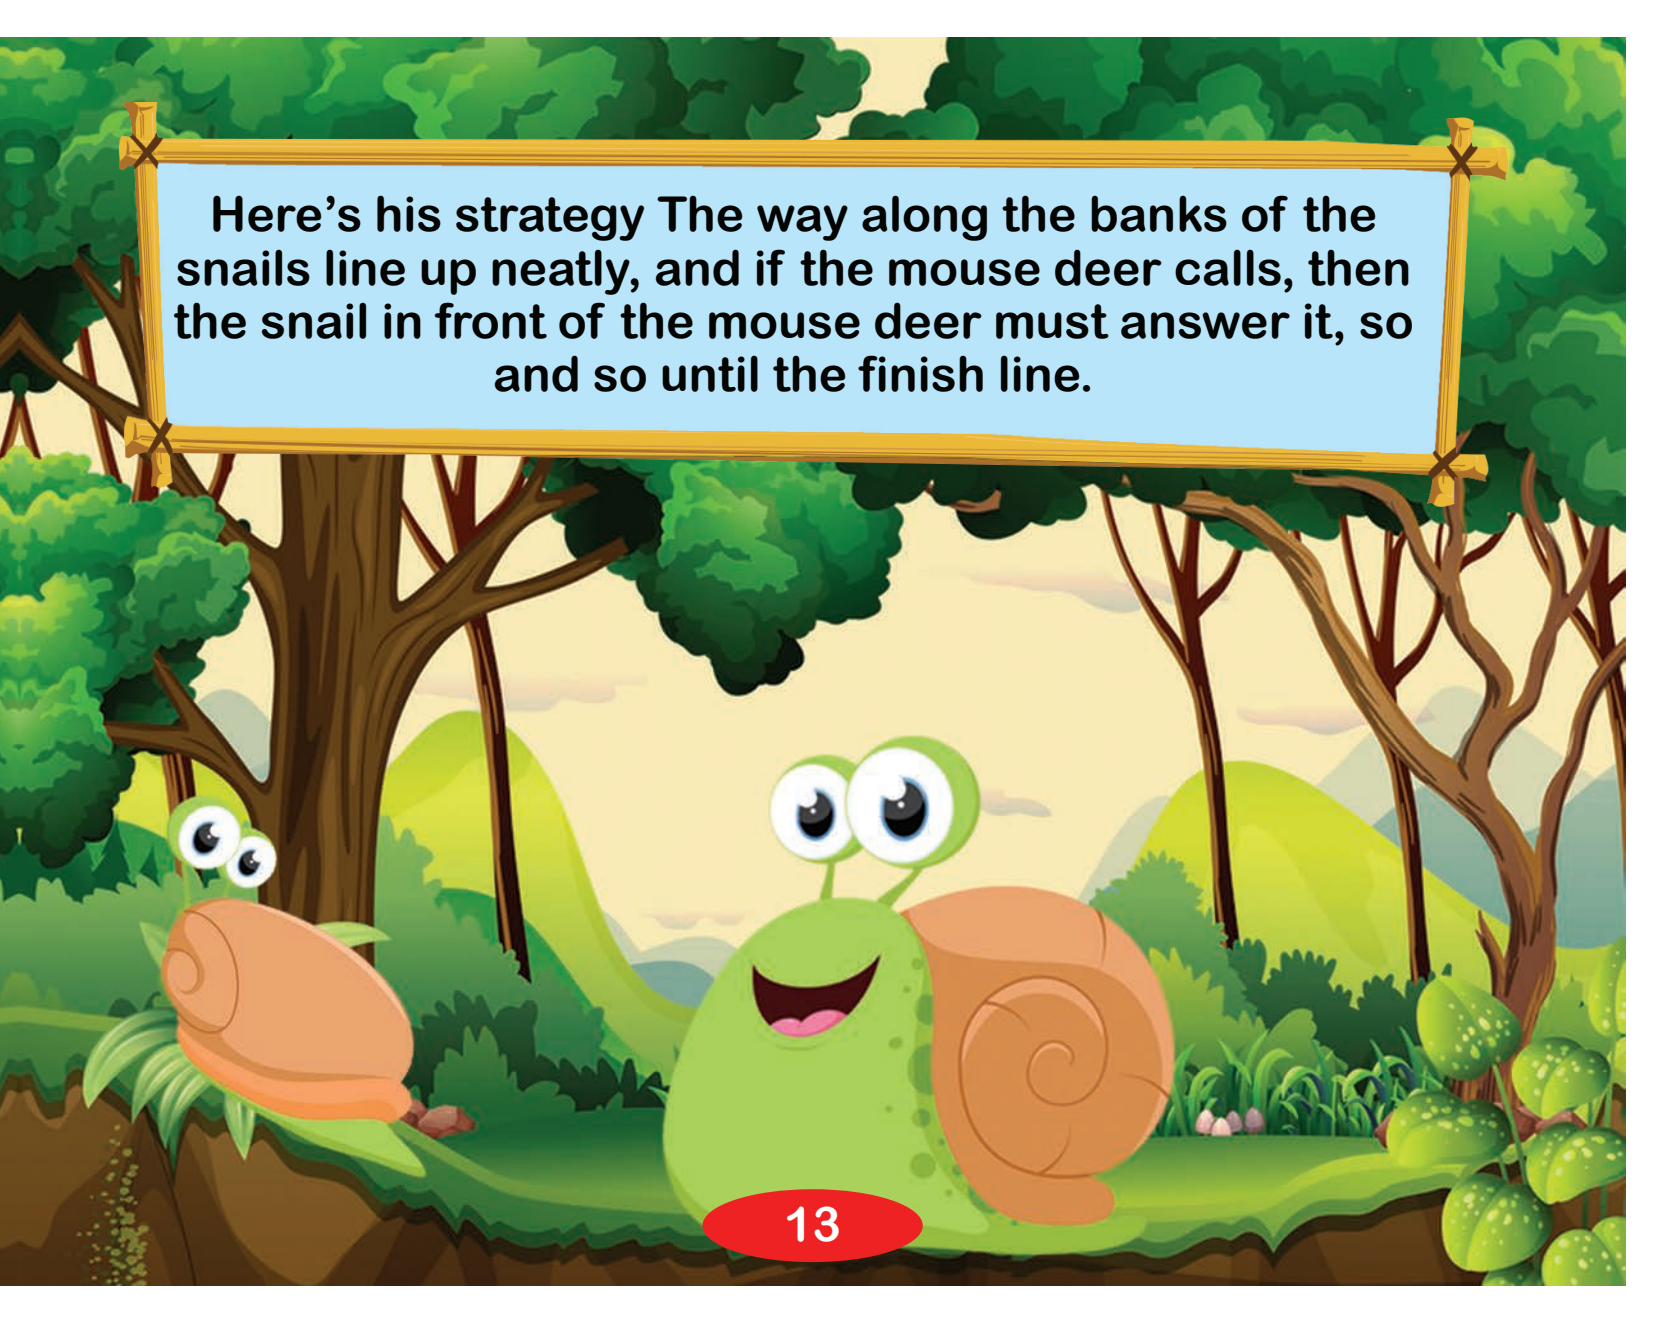

The mouse deer is looking forward to race day H. And during that time, the snails make a strategy, snails invite other snail friends to gather and tell about the challenges of the deer to him. Wrinkles and other snail comrades are discussing to win and can embarrass the mouse deer.

Begini Strategi nya Cara nya sepanjang tepian sungai siput-siput berbaris rapi, dan Jika kancil memanggil, maka siput yang ada di depan kancil harus menjawabnya, begitu dan begitu sampai garis finish.

Here's his strategy The way along the banks of the snails line up neatly, and if the mouse deer calls, then the snail in front of the mouse deer must answer it, so and so until the finish line.

Akhirnya hari yang sangat dinantikan si kancil pun tiba. Hampir semua penghuni dalam hutan datang untuk menontonnya. Kancil dan siput sudah bersiap-siap di garis start.

Finally, the day is very much awaited the deer even arrived. Almost all the inhabitants in the forest come to watch it. Kancil and snails are getting ready at the starting line.

“Apa kalian sudah siap?” tanya pemimpin adu lari kepada Kancil dan siput. Keduanya pun mengangguk.
“Mulai!”

“Are you ready?” asked the leader ran to the Kancil and snails. Both nodded. “Start!”

Keduanya langsung lari. Kancil langsung berlari dengan kecepatan penuh. dan setelah beberapa jauh, si kancil mulai kecapean, nafasnya mulai terengah-engah. si kancil berhenti sejenak untuk istirahat sebentar, dia pun memanggil si siput ,
“Put, siput?” panggil kancil kepada siput.

Both ran away. Kancil immediately ran at full speed. And after some distance, sikancil start kecapean, breath began to pantyhose.si kancil pause for a while, he also called the snail,
“Put, slug?” Call the mouse deer to the slug.

**“Ya, aku disini,” sahut siput, bergerak dengan lambat di
depan kancil.**

“Yes, I’m here,” snails said, moving slowly in front of the mouse deer.

Si kancil kaget karena siput sudah berada di depannya, dia tidak jadi istirahat dan si kancil pun langsung bergegas berlari kembali dengan sekuat tenaga.

The deer is surprised because the snail is in front of him, he did not so rest and the mouse deer rushed immediately ran back with all his strength.

Kancil pun merasa sangat lelah, mulai kehausan, dan terengah-engah dengan nafas yang seperti hampir habis, kancil berhenti, dan kemudian memanggil si siput kembali.

Kancil also feel very tired, start thirsty, and panting with the breath that like almost run out, deer stop, and then call the snail back.

Si kancil mengira siput berada di belakangnya,tetapi dugaan si kancil salah,si siput tetap menjawab di depan kancil,karena itu memang strateginya siput.

The deer thinks the snail is behind it, but the alleged the mouse deer is wrong, the snail still replied in front of the mouse deer, because it's a slug strategy.

Si kancil berlari kembali,dan begitu seterusnya,sampai akhirnya si kancil kelelahan dan menyerah kepada siput.

The mouse deer ran back, and so on, until finally the deer was exhausted and surrendered to the slug.

Penghuni-penghuni hutan pun terkejut melihat kancil menyerah balap lari dengan siput, Akhirnya berkat strategi yang sukses si siput menang dalam lomba larinya.

Forest dwellers were surprised to see the deer gave up racing with a slug, Finally thanks to a successful strategy the snail won in his running race.

BELAJAR PERTAMBAHAN 1 SAMPAI 10

$$0 + 1 = 1$$

$$0 + 2 = 2$$
